### **WATERFORD'S MEMORY CARE PROGRAM RECEIVES STATE LICENSURE**

(FARGO, N.D.)—The Memory Care Program at Waterford at Harwood Groves has been licensed by the state as a Basic Care Facility. Located at 1200 Harwood Drive in Fargo, Waterford's Memory Care Program consists of 20 studio apartments and several living areas, including a private dining room. A registered nurse coordinates the program, and care giving staff are scheduled 24-hours a day. All staff selected for the Memory Care Program receive special training in person-centered dementia care.

Those with Alzheimer's disease or other forms of memory loss receive personalized care that focuses on each person's specific needs. Services include daily housekeeping as well as other assistance based on individual assessments. A customized life enrichment program includes music, exercise, outings, and other activities.

"We're delighted to receive this state licensure," says Memory Care Coordinator Doris Olstad, RN. "Maintaining a safe, active, and healthy lifestyle for people living in our Memory Care neighborhood is our highest priority."

Waterford at Harwood Groves provides a broad range of services for active adults, including independent living, assisted living, respite care, and memory care. Opened in 1998, the Waterford is home to more than 120 people.
